ACADEMIC INTERNSHIP PRESENTATION

Teaching Internship

Teaching Young Minds Today for a Brighter Tomorrow

A journey of learning, teaching and making a difference.

STUDENT DETAILS

STUDENT NAME
RIDDHI SINGH

ENROLLMENT NO.
25SCS1003003186

PROGRAM
B.Tech – CSE

BATCH
2025 – 29

*Future
Ready*

INTERNSHIP AT

Government Composite Upper
Primary School (UPS Mahraipur)

DURATION

25-06-2026 to 20-07-2026
(4 Weeks)

Internship Snapshot

OVERVIEW

01

FOUR WEEKS

25 Jun – 20 Jul 2026

02

LEARNERS

Pre-Nursery → Class 1

03

SUBJECTS

English & Mathematics

04

APPROACH

Interactive learning

WHAT THE INTERNSHIP INVOLVED

- **Teaching:** Educational sessions for young learners.
- **Concepts:** Supporting basic concepts in English and Mathematics.
- **Communication:** Encouraging classroom interaction and communication.
- **Participation:** Keeping learners involved in the learning process.
- **Problem-solving:** Supporting age-appropriate thinking and responses.
- **Environment:** Creating a supportive and engaging classroom experience.

THE LEARNING CONTEXT

Pre-Nursery

Class 1

At this early stage, students are developing basic understanding and communication skills.

SIMPLE • CLEAR • ENGAGING

INTERNSHIP OBJECTIVES

- Gain practical experience of teaching in a school environment.
- Work with young learners from Pre-Nursery up to Class 1.
- Conduct educational sessions in English and Mathematics.
- Support students in understanding basic concepts.
- Encourage communication, interaction and participation.
- Support development of problem-solving abilities.
- Use interactive learning methods suitable for young students.
- Gain practical experience of student engagement and classroom interaction.

SCHOOL PROFILE

SCHOOL	Government Composite Upper Primary School (UPS Mahraipur)
VILLAGE	Mahraipur
BLOCK	Purkaji
DISTRICT	Muzaffarnagar
STATE	Uttar Pradesh
UDISE CODE	09020400202

INTERNSHIP SCOPE

01 Young learners	02 English
03 Mathematics	04 Basic concepts
05 Communication	06 Problem-solving

Teaching work was centered on direct interaction with students and their early-stage learning needs.

AGE-APPROPRIATE TEACHING

01 Simple concept explanation

02 Interactive learning

03 Student participation

04 Communication

05 Practice & understanding

06 Problem-solving

HOW THE METHOD FIT YOUNG LEARNERS

- **Clear communication:** Language and explanations were kept simple and understandable.
- **Interaction:** Sessions were not limited to one-way communication.
- **Participation:** Students were encouraged to remain involved.
- **Engagement:** Teaching aimed to create a supportive and engaging environment.
- **Understanding:** Basic concepts were emphasized instead of unnecessary complexity.
- **Thinking:** Students were supported in responding to questions or tasks at their level.

involved during the internship period.

STUDENT ENGAGEMENT

- **Young learners:** Teaching required simple, clear and engaging communication.
- **Participation:** Student involvement helped make learning interactive.
- **Classroom role:** Explaining concepts while interacting with learners.
- **Activity orientation:** The internship included practical and activity-oriented learning.
- **Learning environment:** An engaging setting supported students' participation.

INTERACTION + PARTICIPATION

Teaching Activities & Learning Experience

attached photograph of an activity session provides additional evidence of practical engagement during the internship.

Figure 4.2: Activity-based learning session

Activity-based learning session

of the four-week internship. It records the internship period from 25-06-2026 to 20-07-2026 and confirms the teaching work carried out during the programme.

The certificate states that educational sessions were conducted on English and Mathematics for school students, with a focus on improving basic concepts, communication skills and problem-solving abilities through interactive learning methods.

Along with the certificate, four different photographs from the internship are included as supporting evidence of student participation, classroom engagement and activity-based learning. Each photograph is included only once in the report.

Figure 4.3: Students participating in an interactive classroom activity

Interactive classroom activity evidence

The report describes the experience as activity-oriented and emphasizes patience, clear communication and student participation.

Learning Outcomes & Internship Evidence

OUTCOMES

KEY LEARNING OUTCOMES

01

Practical experience of working as a teacher.

02

Experience teaching Pre-Nursery up to Class 1.

03

Experience conducting English and Mathematics sessions.

04

Understanding of interactive learning methods.

05

Experience focusing on students' basic concepts.

06

Experience communicating and interacting with young learners.

07

Practical exposure to encouraging participation.

08

Better understanding of early school teaching-learning.

COMPLETION CERTIFICATE

Figure 3.1: Internship Completion Certificate

Formal evidence of the four-week internship.

Conclusion & Internship Completion

CONCLUSION

CONCLUSION

The four-week internship provided practical experience of teaching young students and strengthened understanding of basic concepts, communication, interaction and participation in early school learning.
